

It Still Remains

Gigi baby, back in 2014
I found an angel on PS3 screen
Bought you back to boston
Now we're living the dream

Do you remember that very special day
On Call of Duty, when I tea bagged your dead body
Gigi how I love you in every single way

Still hanging out and playing games
Gigi and PS3 still running through my veins
Feels like the world has surely changed
And yet our bond it still remains

I'm so grateful for our 2 boys Luke and Bobby
When I'm feeling down I know that you are always with me
I'm almost blinded by your kindness and your beauty

Gigi You and I we've got a special connection
Give you all my love and affection
I will never let you down

Still hanging out and playing games
Gigi and PS3 still running through my veins
Feels like the world has surely changed
And yet our bond it still remains
