

We met on the beach,
At lake Kampeska,
The waves were crashing down in the distance

And as the wind blew,
That's when I saw you
With your daughter, you smiled, and I knew I had to

Walk up to you and introduce myself,
Become friends with you to turn friendship into love

Cause you're my everything,
Cause of you, Zoey and Alysia I'm a better a man,
Remember when I asked for permission?
To take you down to the beach,
To turn around and get down one knee,
Cause I feel the same as the first day,
You're my everything

You've changed my life forever,
You've given me a family,
From teaching the kids how to drive, changing oil, changing tires

But I'd never get tired of spending time,
With you and the girls, Jon our boy,
And to think this all came from that moment

I walked up to you and introduce myself,
Become friends with you to turn friendship into love

Cause you're my everything,
Cause of you, Zoey and Alysia I'm a better a man,
Remember when I asked for permission?
To take you down to the beach,
To turn around and get down one knee,
Cause I feel the same as the first day,
You're my everything

Let's live this life forever,
Cause there's nothing else that's better
