

Always and Forever

Words by JC Smith

I was a young and careless man
My life had no clear direction
'Til the day I held my daughter in my hands
Then my purpose became known
Ever since then I've been certain
There's a love only a father understands
If I had the choice I'd do it all again

I will love you always and forever
No I won't give up
When life gets tough
No matter what
I can tell you I'm proud to be your father
When against all odds
No I'll never stop
I will always fight for us
'Cause whatever comes our love keeps us together
Always and forever

Life can be so punishing
But inside I found a blessing
The greatest gift I have is being with you kids
My only hope is that you know
How my heart feels for you all
That no matter what I'll love you 'til the end
Cause you're the reason I would do it all again

I will love you always and forever
No I won't give up
When life gets tough
No matter what
I can tell you I'm proud to be your father
When against all odds
No I'll never stop
I will always fight for us
'Cause whatever comes our love keeps us together
Always and forever
