

When I first met you  
At the bottom of the stairs  
Oh my heart nearly melted  
I loved you right there

Billie I want you back  
I love you and I'm sorry  
I haven't been the man I need to be  
We can write a new story  
Billie I want you back  
The good times came and went  
But I'd do anything to hold you again

Back at the beginning  
It was all so right  
We did everything together  
And we laughed  
We cried

Billie I want you back  
I love you and I'm sorry  
I haven't been the man I need to be  
We can write a new story  
Billie I want you back  
The good times came and went  
But I'd do anything to hold you again

I miss you  
I love you  
I need you  
And I want you

Billie I want you back  
I love you and I'm sorry  
I haven't been the man I need to be  
We can write a new story  
Billie I want you back  
The good times came and went  
But I'd do anything to hold you again

Billie I want you back  
I love you and I'm sorry  
I haven't been the man I need to be

We can write a new story  
Billie I want you back  
The good times came and went  
But I'd do anything to hold you again
